**Subject:** RE: 2/8 Presentation Materials - ETS

Ted,

If you want to include additional materials in your presentation, you can. I will just need to have any additional information reviewed by Legal. If you need project sheets for any of those projects under ETS (other than those by Ruth or Tony) let me know and I'll e-mail that information.

As far as 1102, 1104, 1103 - those are all being covered under the "Diseases" presentation that Rick is supposed to give. (Those 3 fall out under "Cancer"(Tier 2) in the plan document.) Do you think those projects better belong in the ETS section?? Please let me know.

Thanks,  
Valerie

**Importance:** High

Valerie,

Would you be kind enough to answer two questions for me. The first is, do I understand correctly that my presentation should consist of nothing more than a slide giving the name of the project, the objective, the deliverable, and the planned date of completion? Secondly, could you please tell me who will be discussing the following projects: N01102, N01104, and N01103? These are also projects dealing with ETS.

Thanks a million.

Ted

**Subject:** 2/8 Presentation Materials - ETS

Dear Ted,

Attached please find:

- 1) A revised agenda for the 2/8 presentation to Urs Nyffeler, and
- 2) Timelines for your presentation as indicated in Loreen's e-mail of 1/17.

As indicated in Loreen's note, these timelines should form the basis of your presentation. If you would like to include additional slides you are free to do so, however, I will need a draft copy of any additional materials by close of business on **Monday, 2/5** so that we can obtain clearance from Legal.

If you have any questions, please let me or Loreen know.

Thanks,  
Valerie
